In c1870 Frederick Teague Cansick conducted a survey of some of the inscriptions on the gravestones in St James' churchyard. This survey included not just the names and dates, but also the actual wording. This was published in 'Cansick's Epitaphs of Middlesex Vol 3' on pages 110-128.

In 1980 the Hendon & District Archaeological Society (HADAS) started to record all the graves and this was completed by the North Middlesex Family History Society in 1985.

This document contains an index of names recorded, together with dates of death, ages, and which parish the deceased came from. The following abbreviations appear in the index:

AS = All Saints' Church

FB = Friern Barnet

PP = St Peter-le-Poer Church

WH/UR = Whetstone United Reformed Church

The original recording forms, which include sketches, are housed at Barnet Museum at 31 Wood Street, Barnet. The Burial Registers are kept at the London Metropolitan Archives. References:

Plans of the graves are included at the start of the document and Cansick's records are in the final pages.
